FLAT-PAR 7 RGB-WW

STATIC LIGHT

MANUAL

THANK YOU FOR PURCHASING OUR PRODUCTS

Every unit has been thoroughly tested and has been shipped in perfect operating condition. Carefully check the outer and inner packaging for damage that may have occurred during shipping. If the carton appears to be damaged, carefully inspect your fixture for any damage and be sure all accessories necessary to operate the unit have arrived intact. In case damage has been found or parts are missing, please contact the distributor or your dealer for further instructions. Do not return this unit to your dealer without first contacting them.

1. SAFETY INFORMATION

<u> </u>	Before operating this unit, please carefully read this manual and keep for usage in the future. It is necessary to respect the following rules.
	Disposal of the device after its life cycle can damage the environment. Take it to a recycling company or return it to the authorized dealer.
((The products referred to in this manual conform to the guidelines of the European Community and are therefore marked with the CE logo.
<u></u>	Keep this device away from children and unauthorized users. The dealer is not liable for damage as a result of ignoring the information in this manual and incorrect operation.
<u></u>	Before operating this unit, please make sure the housing is in good condition and ensure pan and tilt can rotate in full range.
0.5 m	Ensure that a minimum distance of 0.5 m is maintained between the fixture and any flammable material.
0	The device can only function with $100-240v$ voltage, $50/60Hz$ power. Do not connect to any other power supply. Disconnect the device from the power supply before opening it or before maintenance.
*	Never look directly into the projecting lens when the fixture is switched on. The light can cause epileptic seizures in light-sensitive people or people with epilepsy. Extreme caution and compliance with these safety instructions are required, especially with beam effects.
<u> </u>	Do not place or install the device on a surface that is exposed to vibration or any movement.
-15°C +45°C	The device should operate in temperature range -15 $^{\circ}$ C and + 45 $^{\circ}$ C. Do not use the device if the temperature exceeds this range.
	The lens shield must be replaced if it is broken. Never use the device if the shield is not fully closed.
	Safety I class device must be earthed.
	When the fixture is mounted overhead, the safety rope must be attached to the correct mounting location on the bottom of the device.
\triangle	Please note that damage caused by manual changes to the device is not covered by the warranty.
63	If possible, recycle all packaging material.

CH3	0255	Blue Dimmer 0-100%
CH4	0255	White Dimmer 0-100%

4. CONNECTION OF DMX-512

Connect XLR-XLR control wire with every light from the output of DMX.

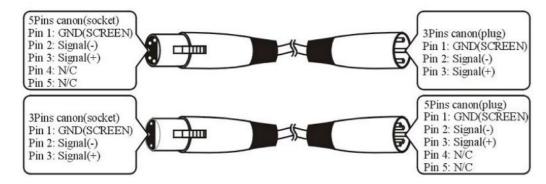

XLR connection:

Pin 1: Screen Pin 2: Signal -Pin 3: Signal +

ATTENTION: Please connect one circle circuit plug on the output signal of last unit. This circle circuit plug must be connected with a 120ohm resistance between terminals 2 and 3 of the CANON plug, connecting this circle circuit plug can avoid the signal flashing phenomena of signal DMX512 during the transmission.

5. PROBLEM SOLVING

Problem	Check List	Trouble Shooting
The fixture doesn't work.	1. Does your fixture get power?	Make sure the fixture is plugged in and power is on.
THE fixture doesn't work.	2. Check whether the fuse is broken.	Replace the fuse.
LED dimmed.	Check the voltage output is the same as the input of the machine.	Make sure the voltage output and input is correct.
	1. Is the polarity is opposite in the DMX controller?	Correct the DMX polarity.
No DMX input.	2. Is it in DMX mode?	Change to the DMX mode.
	3. Are there 2 masters in a loop?	Set one unit in Slave mode.
Unit shows unregular behavior.	Is the DMX address correct on the Par Light display?	Set the right DMX address.

6. SPECIFICATIONS

4in1 LED

•	Voltage:	AC100-240V	•	Channel:	8CH/4CH
•	Frequency:	50Hz-60Hz	•	IP rate:	IP20
•	Consumption:	105W	•	Mode of control:	DMX512 control, auto, sound control.
•	Lamp:	7pcs*15W RGB+WW	•	Gross weight:	0.99KG
