LIGHT-UP INTERFACES

THREE PROFESSIONAL SOFTWARE TOOLS:

1. Professional and easy to use DMX software
2. Complete and easy to use pixel control software
3. Professional 3D drawing software

100% MAC/LINUX/WINDOWS compatible.

LIGHT-UP is easy to use professional DMX software with an advanced effect generator for moving heads and static lighting, including a 30 minute timeline. LED-UP is an intuitive powerful solution for pixel- and video mapping. With DRAW-UP you can design and visualize your stages to pre-program your new light effects.
